Dear Sir:

"CHRYSI" (NN HAPALAMPOS PROSIPATUM)

I am in receipt of your letter of the 30th ultimo and have to confirm that the length of the bridge is 34.6' and not as reported in New York Report No.52229.

With regard to your request for the Certificate for the sternframe casting, this vessel was the first of the Hulls building for this Company and the Society's Surveyors at Philadelphia were not given the opportunity of inspecting and testing the sterframe sections which were made and inspected by the American Bureau in March 1952.

In the circumstances, I have obtained particulars of the tests made by the American Bureau which are enclosed herewith.

Yours very truly,

Principal Surveyor, U.S.A.

The Secretary,
