-----

Plans of midship section and framing profile  
submitted, in duplicate, by the Barrow Surveyors.

This vessel, which is similar to the M.S. "BERMUDA"  
but of increased dimensions, is proposed to be fitted with  
Turbo-Electric machinery.

As requested by the Builders, approval of the  
scantlings of the shell and double bottom structure was  
indicated to them on the 11th instant.

It is submitted that provided

Compliance

the vessel will be eligible to be classed 100A1 with a freeboard  
corresponding to an extreme draught of 26'-6" for all seasons.

The high elastic steel proposed to be used in the  
upper parts of the vessel's structure should be in accordance  
with Section 7 of the Rules for Quality and Testing of  
Materials.

25. 4. 30.
