10th February, 1948.

Dear Sirs,

s.s. "MONARCH OF BERMUDA"

With reference to the recent call of Mr. Singer and Captain Bird at this Office regarding this vessel, I think it well to inform you that after communication with Dr. Webster, the Society's Principal Surveyor for Scotland, on the subject it is considered that the recommendations previously made by him are sufficient for a voyage to the U.S.A. provided special attention be given to the pillaring girders and cross ties, it being also recommended that the vessel be ballasted so that it may have an easy roll.

The Leith Surveyors are being informed accordingly.

Yours faithfully,

Clerk to the  
Classification Committee.
