Nadir House,

McLeod Road,

Karachi, 1st JUNE 1945.

JOHN RUNDLE  
ENGINEER SURVEYOR.

Dear Sir ,

With reference to the Machinery Report on the S.S. "EMPIRE RAJA", herewith enclosed, it will be noted that the recommendation on the interim certificate contains a remark that the electrical wiring should be altered to comply with Rule Requirements. I have to advise you that this remark was put on the certificate as I understood that the cables used were of local manufacture which have been found to have faults such as variation of diameter of the conductor and also displacement of the conductor in the insulation.

Since, I have learned from the Electrical Engineer of Messrs. Alcock Ashdown & Co. who wired the vessel, that the cables were made by the General Electric Company and I have, therefore, not included the remark upon Report 9.

The Secretary,  
Wokingham.

I am, Dear Sir,  
Yours faithfully,

*John Rundle*
