

20th December, 1949.

IRAEUS.

551 "CAPTAIN MIKS" A^E, recommended, and the Committee have referred further consideration of this case for completion of Annual Survey and repairs by the end of the present month.

It is observed that the vessel left Suda Bay on the 10th instant for Heraklion and I shall be glad if you will advise immediately should the repairs not be effected by the end of this month.
