

"MARQUES DE URQUIJO"

The machinery of this vessel was built in Sunderland in 1894-1 and classed with this Society.

The class was withdrawn 13.6.24. and three dots (...) inserted in lieu.

The Owners desire to have the vessel reclassified and should be informed that to have the vessel's character reinstated in the Register Book as formerly, it will be necessary for:-

A complete Special Survey of the engines and boilers, also the screwshaft and steam pipes, Any alterations that may have been made since the vessel was disclassified, which might affect the class, should be reported for consideration.
