

Sir,

With reference to your

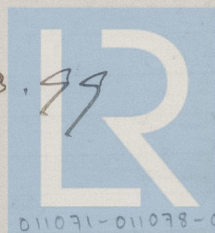

REEBOARD REPORT on the

S. S. Whitburn

It is submitted the Owners should be informed in further reference to my letter of the 15th inst that on communicating with the Cardiff Surveyors it was found that the vessel had left that port for Venice, & they should be asked to inform this office when the vessel may next be seen in dry dock in order that the moulded depth may be carefully measured on both sides of the vessel at each deck.
