Dear Mr. Hunter,

With reference to your official letter of 18th ultimo regarding fees in the case of the cancelled Transport Ferry J.1860 (Lithgows), I would explain that, with a view to obviating the duplicating of accounts, it is the invariable practice to defer the rendering of a claim to the Admiralty in respect of Specification fees until reports are received.

In the present instance, we shall accordingly await your reports on the constructions of the engines in question, which do not appear to have yet come to hand.

Yours sincerely,

C.N. Hunter, Esq.,
GREENOCK
