

s/s "Angela" ex "River Clyde"

This vessel's machinery has now been submitted
Survey with a view to its reinstatement to class.
The machinery has been opened up, overhauled &
extensive repairs effected & it is now in a good &
efficient condition.

The old boilers have been removed from the vessel
two new wing boilers fitted, a second hand centre
boiler has also been fitted. All these boilers were
made under Special Survey.

The case is now satisfactorily reported upon.
