

Algoa

Hopper Suction Dredger "KABELOU", 289 tons gross, nominal horse power 54.

Fees for classification

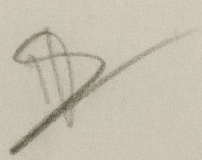

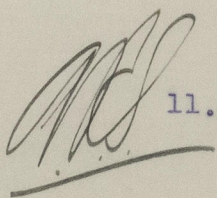

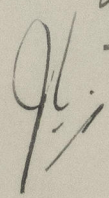

This vessel, which was built in 1923 and classed with the Bureau Veritas, has now been under survey at Rotterdam with a view to classification with this Society. She was under survey from the 27th February until the 29th March, seven visits having been paid for the survey of the hull and six for the machinery and boilers.

If this vessel had been built under the Society's Survey, the fees would have been as follows :-

	<u>Hull</u>	<u>Machinery</u>
First Entry	£3-0-0	£2-0-0
Special Survey	<u>£28-18-0</u>	<u>£15-0-0</u>
	£31-18-0	£17-0-0
<u>TOTAL =</u>	<u>£48-18-0</u>	

It is considered that a suitable total fee for classification in this case would be £30 (£20 hull and £10 machinery) plus travelling expenses, and it is submitted the Rotterdam Surveyors be informed accordingly.
