**COPY.**  
**PORT OF GLASGOW**

CLOSURE.

28th February, 1921

I beg to transmit herewith a letter from Mr. Clarke  
reply to yours of the 25th instant respecting the fees for  
inspection of the installation of electric fittings on  
vessels.

I am, Sir,  
Your Obedient Servant,

Secretary,

Secretary to the  
Glasgow Committee.

LONDON

28th February, 1921.

Dear Sir,

I beg to acknowledge the receipt of London  
letter "E" of the 25th instant regarding fees for electrical  
installations, and will be guided by the directions given,  
:- that the fees for the inspection of the installation  
electric fittings are to be calculated on the total kilowatts  
the generators. The question as to the amount of the  
under the new rules was raised by Mr. J. Charters & Messrs.  
Ford, Grier & McKay, who are both electrical engineers. The  
matter being of some importance to them when estimating for con-  
tracts for electrical outfitting, it was submitted for the con-  
sideration of the Committee.

Secretary,  
GLASGOW.

I am, Dear Sir,  
Yours faithfully,  
(Sgd) Harry Clarke.
