Dear Sirs,

C.  
DNC/DET

## CLASSING LETTER

5200 "EBRO". As recommended. It is concluded the main sea inlet valve now renewed is of approved material and that the saturated steam pipes in the smoke boxes of the boilers now examined, were examined and found good, but your confirmation is desired.

The condition of class in SRL 192, referred to the motor vessel "EBRO" of 5881 gross tons, but it is concluded that the port main sea inlet valve of the vessel now reported did, in fact, require renewal.

Yours faithfully,

pro Clerk to the  
Classification Committee

The Surveyors,  
DUNKIRK.
