15/5/63

This ship has the notation in the R.S. "Hulk" Class suspended 3.55.

The Owners have now requested a certificate as an unclassified ship
 on delivery voyage from Trinidad to the Persian Gulf. For this
 purpose the complete machinery installation was overhauled under
 survey of Mr. Macmillan, appointed by Lloyd's Agents, Venezuela.
 The machinery was subsequently examined by the Port of Spain
 surveyor who reports the machinery installation in good
 condition throughout.
 Two new tested (Lloyd's) screwshafts were fitted at Maracaibo.
 Machinery trial of unstated duration is reported as good.

This report was issued for the information of the Committee
