

"ADULIS".

It has been ascertained that Messrs. Sir J.H. Biles & Co., are the Owners Consultants in this case and Mr. Lyndsay of that Company states that the ship has already passed Algiers. He is somewhat concerned to hear that the Committee may require an inspection to be held at Port Said or Suez.

If necessary, however, he states that such an inspection could be held provided we send cabled instructions to our Surveyor to contact the Captain of the ship (Captain Hair) on arrival.

13th October, 1947.
