From the above account it will be seen that after payment of the amount due to the Society and income-tax I am actually out of pocket on the account rendered.

In my letter to you dated 15th February 1958, I mentioned the fact that the I.W. Transport Board had not contacted me till that date and as such it is clear that the survey was undertaken on behalf of Messrs. Yarrow & Co., Ltd.

I enclose a further copy of the Report No. 2154 dated 16th February 1958 as requested. I feel certain the Inland Water Transport Board who are the Owners will consider that surveys during and upon completion of modifications to the Feathering Eccentrics of these ships are for the account of Builders as their attitude appears to be that this work is the result of a defect in the original design.
