

# Date of Build

S.S. "NORWEGIAN".

This vessel has recently been completed at Dundee by the Caledon Shipbuilding & Engineering Co., for Messrs. F. Leyland & Co. Ltd.

The date of the First Survey is the 18th June 1919, the vessel was launched on the 28th December 1920, and the date of the last survey is the 25th August 1921, eight months having thus elapsed between the launch and the last date of survey.

In forwarding his First Entry Reports the Surveyor states that the trials of the ship have been delayed owing to the coal strike, and recommends that although more than six months have elapsed since the launch the date of completion of survey might be taken as the date of build of the ship.

In the circumstances it is submitted for the favourable consideration of the Committee that the date of build in this case might be recorded as "AUGUST 1921".
