

28th September, 1949.

Dear Sirs,

s.s. "OAKLEY"

With reference to the case of this ship which was mentioned in Mr. Edgar's letter of the 12th and my reply of the 20th April, I think it well to inform you that the matter has now been considered in this Office in the light of the survey so far as held and it is understood you are aware of the outstanding items of survey.

Should you be called upon to complete this inspection I have to say that, according to the records in this Office, the following items remain outstanding, viz:-

Hull

1. Particulars of anchors on board
2. Hand pumps to examine (if any)
3. Nos. 3 & 4 P.B. tanks to test.
4. Annual Load Line Survey
5. Overall length - particulars required.

Machinery

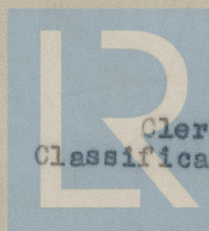

1. Plan of the boilers to be supplied.
2. Boiler safety valves to be set at working pressure.
3. A quay trial and main and auxiliary machinery, windlass and steering gear tested under steam.
4. Tests of pumping arrangement and electrical installation.
5. B.C. machinery particulars sheet to be completed.

Yours faithfully,

Clerk to the
Classification Committee

The Surveyors,
NEWCASTLE-on-TYNE.
