

14th. February, 18.

Thomas H. Blackie,

Mr. Plenty & Son, Ltd., Newbury, attend at their works on
the 21st. 1914, and subsequently, for the purpose of
examining during construction, a set of Compound Surface
Expanding Engines, designated No. 2266, having cylinders
26" diameter, by 16" stroke, and intended for a
working pressure of 127 lbs. per square inch.

The material has been tested in accordance with
the Society's Rules, and the workmanship is good.

Engineer Surveyor to Lloyd's Register of Shipping.
