

12th July, 1955.

My dear Charles,

Will you please arrange for the following amendments to be made in some Liverpool Committee Minutes:-

s.s. "ROBERT L. HOLT" Liv. Rpt. No.142311. Instead of "Without endorsement" enter "Without Special Condition" (delete endorsement) as prior to this survey there was a qualification of class which has now been cleared up.

s.s. "EL GALLO" Liv. Rpt. No.142308. Add (with endorsement).

m.s. "OCEAN COAST" Liv. Rpt. No.142315. Amend docking date to 5.55. as in the Surveyor's recommendation he states the ship was undocked on the 2nd May.

Grab Dredger "MANNIN" Liv. Rpt. No.142309. Add "Deferred for completion Special Survey". There is one other point about this case and that is concerning the Special Survey. There has been a considerable amount of correspondence with the Owners about the possibility of holding a Special Survey on a grid at Ramsay, and in view of the Surveyors' comments at the end of his report should you not now write to the Owners stating that the Special Survey will require to be done in Liverpool.
