

"CARNARO" - Machinery Fees.

The fees to be charged should be based on
the U.K. revised scale ^{plus 25%} and the proportion to be
charged for re-classification should be 35%.

No report has been forwarded for the Steam
Auxiliary Engine or the Emergency Diesel Engine
and under the revised scale, fees should be charged
for these.

The total Kilowatts appears to be 86, not 46
as reported.

IT IS SUBMITTED the Trieste Surveyors be
informed accordingly.
