

RI

Oil Tanker "OPALIA".

Messrs. Nederlandsche Dok My's Yard No. 67.

This vessel has just been completed, and it is noted from the First Entry Report that the stream anchor as supplied is 3 cwts. 21 lbs. less than the weight required by Table 53 of the Rules. The weight of the stock is, however, 14 lbs. in excess and the combined weight of the bower anchors 8 cwts. 21 lbs. in excess of the Rule requirements. Further, the equipment numeral is only 59 above the limit of the lower grade.

The Surveyors state that they have discussed the matter with the Owners' Superintendent, who requests that the stream anchor might be accepted.

In the circumstances set forth above it is submitted this be agreed to.
