Dear Sir,

Steam Tanker "METEOR"  
Steamer "JAMES A. FARRELL"  
Steamer "INVERRUBA"  
Steamer "QUIBIAN" ex "CYAMANIA"

The annual review, in preparation for the next reprint of the Register Book, of ships which are laid up and overdue for classification surveys and in respect of which a qualifying notation is recorded in the Register Book, is now being undertaken.

A sheet is attached setting forth the classification position regarding the above mentioned ships, from which it will be seen that by the time of the reprint of the Register Book more than eight years will have elapsed since the last recorded date of full Special Survey.

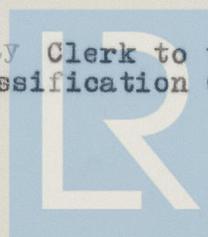

The Committee's procedure in such cases is to give instructions for the class of the ship to be omitted and for a notation "Classed LR until (date)" to be inserted in lieu in the Register Book.

The classification position in regard to the above ships calls for this action to be taken, but before submitting these cases to the Committee it is desired to know whether you have any comments to offer further to those contained in the answers given by you to the various memoranda addressed to you.

Yours faithfully,

Deputy Clerk to the  
Classification Committee

The Secretary,  
NEW YORK
