

s.s. "VERGRAY"

The Vergocean S.S.Co. telephoned this morning regarding our letter of yesterday and stated they have now received advices from the Captain that opportunity has been taken to clean out the No.1 double bottom tank and all is ready for inspection.

They state that the vessel is leaving San Francisco to-day for a Japanese Port, where it is proposed to dry dock her. They are at present uncertain which Port in Japan but suggest that our Surveyors might keep in touch with their Agents, Messrs. Dodwell & Co. Ltd. of Tokio. It is anticipated the vessel should be arriving about the 2nd or 3rd proximo.

The Vergocean S.S.Co. stated they would be confirming this information in writing.
