

13th October, 1949.

Dear Sirs,

S. With reference to your steamer "VERGRAY" which was submitted to Classification Survey at Newport last spring, I shall be glad to learn what arrangements you have made for the internal examination of No.1 Double Bottom Tank as until this is done the vessel cannot be recommended to the Committee for class assignment.

Your Superintendent will doubtless remember that this item of survey could not be attended to at the time on account of the presence of sludge in the tank and the scarcity of labour for cleaning.

Yours faithfully,

Clerk to the
Classification Committee

Messrs. Vergocean Steamship Co. Ltd.,
Creechurch House,
