

S.S. "VERGRAY" ex "Empire Gray"

Mr. J. L. Smith telephoned from Newport this morning to say that he had made an omission in his Machinery Report on this vessel.

It appears that the gauge glasses on the Settling Tanks are of a type not approved by the Society and although temporary arrangements were made for filling these Tanks prior to sailing, he should have added an extra qualification of class at the foot of his Rpt. 9 to the following effect:-

"and also subject to gauge glasses of approved type being fitted at the first opportunity".
