

COPY.

ENCLOSURE.

22rd December, 1920.

Dear Mr. Martell,

In confirmation of your conversation on the telephone, I should explain that the Owners of the two new Steamers "ELENA PIERCE" and "VIRGINIA PIERCE" are desirous of being furnished with a certificate for registration purposes, to the effect that the vessels have been built under Special Survey and will be classed 100A1 "shelter deck with freeboard" in the Register Book.

We have issued similar certificates before, and I hope you were able to catch my recital of the form of words employed.

I enclose herewith an exact copy of such a form, which I had before me when speaking to you, and I trust you will be able to get the two forms made up, one for each vessel, and signed by the Surveyors in time for to-night's post.

With the best wishes of the Season to all,  
Yours faithfully,

R. H. Martell, Esq.,  
MIDDLESBROUGH.
