

16th September, 1955.

YOKOHAMA.

1721 - As recommended.

1693 "VIRGINIA MARU". This ship has today been classed #100A1 together with the various notations as recommended by you. It is concluded that the upper deck transverses are spaced 2400 mm and not 3200 mm; that the 2nd deck beams are 250 x 12 BP and not 200 x 12 BP; and that D strake of shell plate is 16.5 mm in thickness and not 16 mm, as reported, but your confirmation of these points is desired.

At the same time please furnish approved plans of partial centre line bulkheads in holds, midship and peak bulkheads in order that the reported scantlings may be verified.
