

Motorship "PACIFIC BUILDER"

The contents of the attached cablegram have been discussed with Mr. Hsu in London, and he is unaware of any alteration in this ship's schedule.

As the suggested voyage to Hong Kong is outside the agreement reached with the Committee he has asked for action to be deferred for twenty four hours to enable him to ascertain the Owners' intentions.

The case has been discussed with Mr. Turnbull, who has agreed that we await further developments but that we advise the Kobe Surveyors of the position.

J.M.

8th September, 1959.
