Particulars of surveys effected

A special survey on the hull and machinery together with drydocking tailshaft and annual loadline surveys have been carried out by the non-exclusive surveyors to the Society at Sydney N.S.W. from May 7 1947 until June 16 1949. On completion of the surveys, the surveyors report that the ship was in good condition. Vessel undocked December 31 1948. A provisional loadline certificate has been issued for a period of six months expiring December 17 1949.

Recommendation Reclass BS* and MBS* subject to confirmatory survey with fresh record of drydocking 6/49; ~~12/48~~ ^{ANNUAL SURVEY} 12/49; S.S. "Sydney N.S.W." 12/48; ~~MBS. 12/48;~~ T.S.D.(C.L.) 11/47;
MBS?
