Dear Sirs,

m/v CINDERELLA - Screw shafts.

We beg to acknowledge with thanks receipt of your letter of 8th instant, contents of which have had our best attention.

From the history data supplied by your kind investigation, we noted to our surprise that the shaft marked C 184 BC F 153 RS 12.7.63 was fitted with a new bronze liner in January 1958, after only 4 years and 4 months service, compared with the other shaft which has been in service for nearly 27 years with its original liner.

We wonder whether you could trace up and try to elucidate for what reason a new bronze liner had to be fitted in 1958. This information might help us considerably from a technical point of view.

Thanking you in anticipation for your kind cooperation, we beg to remain, Dear Sirs,

Yours faithfully,
S.A. ENCHIMAR
Le Directeur,

Debruy

Submitted Writers be
 advised in reply to their form of
 their letter of 13.10.64, that due to
 stated heavy weather damage, the
 snowshaft was damaged & the lines found
 fractured. As further details were given by
 the Surveyor. The Writers should also be advised that the Society
 has ~~not~~ record of any lines' replacement relative to the
 original shaft.
