Dear Sir,

Steam Tugs "BIDDICK" and "PALLION"

MS 9/65
SS DSES

Enclosed is letter received today from the Owners of these ships indicating decision to withdraw these small tugs from Class. The Commissioners' desire to have this with immediate effect is subject to some qualification, in that the "PALLION" is still under Survey and, in fact, the Survey is almost complete so that, upon telephone enquiry this morning, the Engineer to the Commissioners has confirmed desire that these Surveys should be completed with a view to the tug having the appropriate records before she is finally withdrawn from Class.

It is not possible to indicate exactly when the Survey will be completed but believed that without doubt it will be during the present month.

Yours faithfully,
THE SURVEYORS,

per
