As regards the vessel "HEINRICH HEINE", we have to inform you that she is going to Antwerp for docking within the next few days. At the request of Messrs. Deutsche Seerederei, a classification survey will be carried out during docking and repairs by our own surveyors with the object to give the ship a class of the DSRK and to include her in our ships' register.

The report covering the boiler inspection, which you requested, will be forwarded to you by Messrs. Deutsche Seerederei.

The vessel "STUBBENKAMMER" was inspected by our surveyors during docking and repairs at Landskrona/Sweden in December, 1958. At the request of Messrs. Deutsche Seerederei, Rostock, the ship received a class of the DSRK and was registered in our ships register under the number - 06 050--.

The report of your surveyor, Mr. R.I. Berthe, at Algiers on the 26th January, 1959 covering the fire in the hold, is in our possession. The repairs were carried out at Rostock under our supervision.
