Your Ref: FM/DD

19th March, 1951.

sn (S) Dear Sirs,

m.s. "SAND RUNNER"

With reference to your letter of the 9th instant, I think it well to inform you that I have communicated with the Society's Surveyors at Cardiff in the matter.

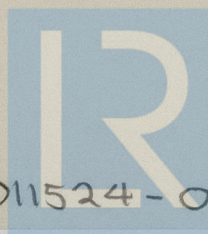

In reply, the Surveyors state that during the course of the survey held by them in August/November last, it was suggested to your Representative that the Special Survey could be carried out in conjunction with the conversion, but that the opportunity afforded was not accepted.

In these circumstances, it is regretted that the only item which can be accepted towards the Special Survey of the hull which becomes due next month is the examination of the open floors under the sand tank.

Yours faithfully,

Assistant
Clerk to the Classification
Committee.
