Messrs. Lloyd's Register of Shipping
Yokohama

ST "ALTHEA"
Hull No. 823

Dear Sirs,

Regarding the subject ship, we previously received from you Certificate of Classification on Hull and Machinery together with your letter of 11th March, 1959.

In this connection, we thought that the issuance of the said certificate should be postponed until the delivery of the ship, and therefore we asked the Owners to contact your London Office to examine why the said certificate was issued. Recently we received their reply stating that the certificate was issued in error by your London Office, who request us to return it to them.

Accordingly, we are herewith returning to you the Certificate and, for your reference, attaching the Owners' letter as regards this matter.

Thanking you in anticipation for your kind attention to the foregoing.

Yours very truly,

YOKOHAMA SHIPYARD & ENGINE WORKS
