29th June, 1961.

C
W
Dear Sirs,

Steamer "J. PAUL GETTY"

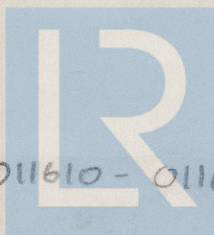

This ship was built at Dunkirk under the supervision of Mr. Ronald and I shall be glad to learn whether he can confirm that the anchors and chain cables on board were tested under this Society's Surveyors' supervision to enable the notation L.A.C.P. to be assigned.

I would add for the information of Mr. Ronald that there would appear to be only 14 complete transverse bulkheads, not 16 as reported.

Yours faithfully,

pro Clerk to the
Classification Committee

The Surveyors,
MIDDLESBROUGH.
