Ref. S.

ANSO.....

Dear Mr. Sladden,

With reference to your letter of the 26th. ultimo respecting the Auxiliary Motorship "TIO PEPE", I am sorry it has not been possible to forward the reports for classification, the vessel having left this port without completing several items in connexion with the Machinery and Electrical Installations.

The Owners now appear anxious to comply with our requirements and it is expected completion will be carried to effect at Cadiz. Mr. Scullard is in possession of a note of outstanding items and I trust the vessel may come under survey again at an early date.

I have written to Mr. Larrucea regarding the First Entry reports on the M/V "EXPLORADOR IRADIER". I spoke about these when I was at Barcelona in December last and understood then that, although the vessel had sailed with some items in connexion with the Machinery and Electrical Installations incomplete, these were receiving attention and it was expected that the reports would be forwarded at an early date.

Yours sincerely,

*R. J. Sladden*
