April 7th 1948.

235/48

Messrs. Amsterdamsche Droogdok-Maatschappij N.V  
Meeuwenlaan 56  
AMSTERDAM N.

Dear Sirs,

Your Ref.: Dir vD/JP - Br.No.48/3660 "SWAROZYC" icebreaker.

We duly received your letter dated 2nd inst. together with the extract of contract in connexion with the above vessel and in reply thereto we have to state that we are prepared to act for you on the following terms:-

The Shipowners to undertake to notify this office of any alleged damage or defects as soon as they become apparent.

We agree to supply you with the usual Lloyd's reports on all such surveys called and also to deferentiate damage as opposed to wear and tear and see repairs and replacements effected.

Our fees for the above would be at an inclusive rate of £ 15.-- per day payable in London and we naturally undertake to keep the time spent on the work to a minimum necessary to fulfil your requirements.

The vessel will apparently be operating in the R.Oder, Stettin, Swinemunde area and this is of course some 500 kilometres from Gdynia and is served by us from Gdynia in the normal way.

We are, Dear Sirs,

Yours faithfully

sgd. W.Kimber

Surveyor to Lloyd's Register
