Extract from semi-official letter  
addressed to Mr. Kimber at Gdynia  
on the 14th April, 1948.

.....

By the way, we committed a faux pas yesterday in that your letter on the "SWAROZYC" addressed to Amsterdam was sent off without being vetted as we afterwards discovered you wanted it to be. I read it, however, before it was despatched last night and it seemed to me absolutely reasonable. Would you mind letting me have another copy together with the extract from the contract, etc., which you advised in your letter to us so that I can put the whole thing in order.
