

POSTPONED SURVEYS

NO. IN REG. BK.

6

BUILT

4 - 1943

LAST DRYDOCKING

2.61

s.s. "PANTANASSA"

LL Cert expires 29.9.61

and/or conditions  
under review

Special Survey due 6.60 largely held  
3.61, and completion postponed until 9.61.  
Engine Survey due 6.60 largely held 3.61.

ing items  
ly held)

For notation SS 3.61:- Drydocking, anchors and  
cables to be ranged and chain locker to be examined.  
For notation ES 3.61:- Examine ~~propeller~~ and sea  
connections.

Hull subject:- See endorsement 9.5.61.

Machinery subject:- See endorsement 19.5.61.

ments  
agreed

Postponement of Special Survey until 6.61 approved  
1.9.60 (GE Mtl 7.60) (the greater part of SS and  
ES subsequently held). On 29th June the Committee  
agreed to the completion of the Special Survey being  
deferred until the discharge of cargo from Russia,  
but in any case not later than the end of September,  
1961 if further maintenance of class is desired.

osal

The Piraeus Surveyors now forward a copy of a letter  
received by them from the Owners stating the  
circumstances in which drydocking has so far been  
impossible. They state that the ship is again to  
load in the Black Sea and discharge in Cuba, calling  
at Aghios Nicolaos (Crete) en route, where they  
suggest that the water end of the main condenser  
and the sea suction valve of the general service  
pump be re-examined. So far as drydocking for  
completion of the Special Survey and dealing with  
other outstanding items is concerned they propose  
that this should be postponed until such time as  
drydocking is possible. The year of grace for  
completion of the Special Survey expired at the end  
of June, 1961. \*In a later cablegram requesting the  
issue of an LLST to complete the present charter  
Black Sea/Cuba and return either Black Sea or Baltic  
it is stated that arrangements will definitely be  
made for drydocking on completion.
