Dear Sir,

Eng.

m.v. "TENNA DAN"  
ex "HOEGH TRADER" ex "CAPE TRAFALGAR"  
Built 1944

---

In connection with the recent classification with this Society of the above-mentioned vessel, we require, for examination, the usual torsional vibration calculations including Holzer frequency tables and vector summations.

It has not been possible to obtain this information from the new Owners and it would, therefore, be appreciated if you would kindly arrange for the Nordberg Mfg. Co. to be approached with a view to obtaining the calculations. The engines are Nos. 21667/8.

Yours faithfully,

pro Secretary.

The Secretary,  
NEW YORK.
