Port of Registry.....

Last docking date.....

s due. Last docking date 4.54.
Boiler Survey due 6.55.
Propeller to be renewed at next drydocking.

ed to be.....

8. This case received the consideration of the Committee on the 14th April and the Owners were informed through New York that unless the vessel drydocked and the Boiler Survey was carried out forthwith the class would be jeopardised.

A cable was received on the 5th May stating that the was due to dock shortly at Veracruz.

It is now stated that the drydocking is scheduled for the second half of July or earlier if repairs to the drydock at Veracruz are completed before that date.

Surveyors' recommendations.....
