Lloyd's Register of British & Foreign Shipping,

71, Fenchurch Street, E.C.

28th October, 1913.

H. Sir,

I have to acquaint you that I am in receipt of a letter from the Anglo-Mexican Products Co., Ltd., in which they state that the steamer "CERNICALO" is now in dry dock at Mobile and that repairs are being carried out. They further state that she will be in port about six weeks in all, and that full instructions have been given to ensure that an opportunity is afforded the Society's Surveyors of inspecting the vessel's screw shaft. I shall therefore be glad if you will give the case the necessary attention and forward a report in due course.

You will observe from the Register Book that the shaft in question has not been seen by the Society's Surveyors since the vessel was built.

I am, Sir,

Your obedient servant,

J.M.Buchanan, Esq.,

NEW ORLEANS.

Assistant to the Secretary.
