Djakarta Report 5778

Dear Sir,

I thank you for your letter of the 9th. of September 1960, classn.(S), and note that it is not considered necessary to record the cropping of the propeller blade tips in the SRL.A.

However I would, as a matter of interest, be pleased to learn what the Society's position would be if the vessel was sold, and the new Owner found that the ship could not attain its designed speed on account of the propeller blades having been cropped.

Yours faithfully,

*J.A. Boater*

J.A. Boater

The Secretary,
