Telex No.: 24305

Telephone: ROYal 9166

31st August, 1960.

Classn(S) Dear Sirs,
RNC

Motor Launch "WATERMAN"

I am much obliged to you for your letter of the 15th instant and have since submitted this case to the Committee in the light of your comments.

The Committee were informed by the Chief Engineer Surveyor's Department here that, with the information available concerning the motors, they did not appear to be eligible for classification, but I am glad to say that the Committee have decided to comply with the Owners' request and to class the hull only, provided you confirm that the fitting of the motors, the petrol tanks and their connections, electrical equipment and sea connections, if any, are to your satisfaction and the bilge pumping arrangements are tested under working conditions.

A class of Al Hydrofoil Craft "For service on the Dutch and Belgian Coast North of Ostend" has been assigned on the assumption that you are satisfied on the above points and a Certificate will be issued on receiving your confirmation.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,
ROTTERDAM.
