

Shipbuilders: Messrs.

Yard No.

Engineers: Messrs.

Hydrofril supported twin seven motor diesel
type Aquavit 5/9 waterline

Engine No.

It is submitted the Rotterdam Surveyors be informed that before full consideration can be given to the plans of extension shaft & housing a completed engine data sheet should be forwarded ^{starting} ~~including~~ the Revolution per minute of the engine and ~~the~~ shafting, ~~and~~ propeller diameter etc.

The Surveyors should also be requested to forward plans of crankshaft and gearing, ^{should be forwarded} together with details of the bridge drainage arrangements, and of the flexible pipe used for the fuel system.

Provided the engine be opened up and found in good condition, and the engine & shafting particulars be verified on being approved, they could be accepted and recommended for the notation L.M.C (with date but without the distinguishing mark +) "Removable combined propelling and steering units".

Plans No. 5377-01P-17 and 5377-01P-19

showing details of the electrical circuits and battery box have been noted and the arrangements shown thereon are such as could be accepted.
