AND

Dear Sir,

"Motorlaunch " WATERMAN "

In reply to your letters of the 31st August and 20th September, 1960 concerning the above vessel, I herewith inform you that I attended on board this launch on the 13th August, 1960.

The fitting of the outboard motors, the petrol tanks and their connections, electrical equipment (no seaconnections are fitted) were examined and the bilge pumping arrangement (consisting of a handpump starboard side with flexible suction which can be placed in any compartment) tested under working conditions and all the above found in good condition and in my opinion eligible to receive the favourable consideration of the Committee.

Yours faithfully,

The Secretary,
LONDON
