Telex No.: 24305

14th August, 1964

Dear Sirs,

R
GAE/RW

"BEECH HILL"

With reference to the Special Survey due May, 1963, approval has been given for postponement of this inspection up to the end of the present month. No part has yet been held towards this survey, either hull or machinery.

A letter has been received from the Owners here stating the vessel is due to arrive at Syra on the 16th instant and is on the market for sale. Until this sale is clarified they are not in a position to advise us when the Special Survey will be carried out, but will do so immediately information is known.

In the circumstances, I shall be glad if you will watch this case on her arrival in Greece and endeavour to let me have some information from your side.

Class is subject as given in Special Reasons List No. 222, but I have to point out that the part reading "Leaky shell rivets in way of No. 14 and in shell plate F.15 etc." should read "Leaky shell rivets in way of frame No. 148 in shell plate F.15 (s.s.) in No. 1 hold".

Steampipe Survey became due last January, and Main Boiler Survey will become due next month. Screwshaft, Liberty type, Survey becomes due next January.

Yours faithfully,

Clerk to the
Classification Committee

The Surveyors,
PIRAEUS
