Dear Sir,

CLASSING LETTER

06407 "BEECH HILL". As recommended, except that the machinery class has only been continued subject to the main injection valve chest being renewed at the Special Survey, as previously recorded.

In this connection, I have to inform you that it is not considered necessary to re-test the Engine Room circuits as this is not below the Rule requirements.

Yours faithfully,

pro Clerk to the
Classification Committee

L.H. Todd, Esq.,
RANGOON
