QUESTION

With reference to your letter of the 11th December I shall be glad to learn how the case now stands regarding the testing of the 20 KW generator set (No.3 port aft) under working conditions with the automatic voltage regulator fitted.

[Signature]

ANSWER

Date:— 12th February, 1959

The Owners state that the automatic voltage regulator has been fitted and arrangements will be made for this to be tested shortly when the vessel is withdrawn from service for dry docking.
