27th August, 1954.

Dear Sir,

With reference to Glasgow Report No. 82280 respecting the non-propelled Rock Cutter (Messrs. Millen Bros. Ltd. Yard No. 165), I shall be glad if you will request the Surveyors to state if the plan of the pumping arrangements (Drawing No. 19212) referred to in your letter of the 10th November, 1952, addressed to Messrs. Lobnitz & Co. Ltd. has subsequently been approved, since this vessel is now intended to be classed. I shall be glad if you will forward copies of this plan to this Office for record purposes and for transmission to the New Zealand Surveyors.

It is also desired to know if the electrical plans have been prepared by the Local Contractors, or whether they will be submitted by the New Zealand Surveyors. If, however, they have been prepared locally, they should be approved and copies forwarded to this Office.

Yours faithfully,

pro Clerk to the
Classification Committee.

The Secretary,
GLASGOW.
